

Corporate Foundation

A great way to complete that legacy for Cryptic masonry is to create a Foundation.

This is a planned giving alternative that can help us make a lasting impact on the Cryptic Rite and our membership.

When we designate a specific amount for the preservation of the Cryptic Rite, you empower our membership to become actively involved in the giving process.

We will help instill in them the guiding principles we have set in the "Proposed Constitution."

A private Foundation may be funded through many and separate gifts and can be organized and maintained as a Charitable Trust or a Nonprofit Corporation.

We must apply for an IRS 501-c status to help with donations.

Trusts are typically simple to set up and maintained, however, Corporations offer greater protection and flexibility.

Cash gifts to private Foundations are deductible up to 30% of the donors AGI.

When incorporated properly, using the 501-c category of the IRS, a Foundation can truly help put the fund to good use.

Best of all, it allows our Cryptic family to create a legacy of giving that will last for generations.

Generate the program. Create the goals. Implement the program. Generate the people.
